Getting Started

Welcome to Interactive Brokers' Account Application Guide for Advisors and Brokers. This guide includes information to help Advisors and Brokers open Interactive Brokers accounts using a variety of available application methods.

Who Should Read This Guide?

This guide is intended for:

- » A Registered Investment Advisor who wants to open an Interactive Brokers Advisor account, including his or her own master account and client accounts.
- » A Broker/Dealer or Introducing Broker who wants to open an Interactive Brokers Fully Disclosed Broker account, including his or her own master and proprietary account, and client accounts.

What's Included in This Guide

This guide describes how to open Interactive Brokers Advisor and Broker master and client accounts using the following available methods:

- » [Apply Online at Our Website](#) - Open your master account using our online account application available on our website, www.interactivebrokers.com, and then send electronic or semi-electronic invitations to your clients to open client accounts.
- » [Create a White-Branded Application for Your Clients](#) - Upload your own banner images to white brand our registration system for your client account applications.
- » [Mass Upload](#) - Upload application information to us for all of your clients at once.
- » [Application XML](#) - Develop your own version of the Interactive Brokers account application to control your clients' application experience.

Additional Resources

In addition to the information in this guide, Interactive Brokers provides important resources for Registered Investment Advisors and Fully Disclosed Brokers.

For Advisors:

- » **Getting Started Guide** - Provides an overview of the tasks you will want to complete as a new Advisor. This guide is designed as a reference for new users and comprises a very small subset of the information and features available to you through IB. This guide assumes that your Advisor master account has been approved and funded, that you are the Advisor Master. The guide also includes information relevant to the Advisor who has opened a trading account for their his or her personal trading.
 - [Online Version](#)
 - [PDF Version](#)
- » [RIA Compliance Center](#) - Basic information on the registration and compliance requirements facing investment advisors that includes a webinar on RIA compliance and PDF documents that spotlight major compliance topics.

For Brokers:

- » **Getting Started Guide for Fully Disclosed Brokers** - Provides a comprehensive collection of the tasks you will want to complete as a new Fully Disclosed Brokers. This guide is designed as a reference for new users and comprises a very small subset of the information and features available to you through IB. This guide assumes that your account has been approved and funded, that you are the Broker Master, and that a Proprietary Account for Broker-Dealers was automatically created for your own personal trading during the application process.
 - [Online Version](#)
 - [PDF Version](#)

For Advisors AND Brokers:

- » [Investors' Marketplace](#) - Our online service where IB customers can form connections with service providers and do business together on Interactive Brokers' platform. Search for a variety of third-party service providers or advertise your own services to potential clients, all at no cost.

Apply Online

Before you can use any of the alternative methods of opening Advisor or Fully Disclosed Broker client accounts described in this guide, you must first open your Advisor or Fully Disclosed master account, which you can do directly from our website. You can also choose to use our standard application methods for your clients.

Click below for a complete summary of the steps required to open Advisor and Broker master and client accounts.

- » [Registered Advisors](#)
- » [Fully Disclosed Brokers](#)

Advisors and Fully Disclosed Brokers can create client account templates in Account Management to save and re-use application information for new client accounts. Click below to learn more:

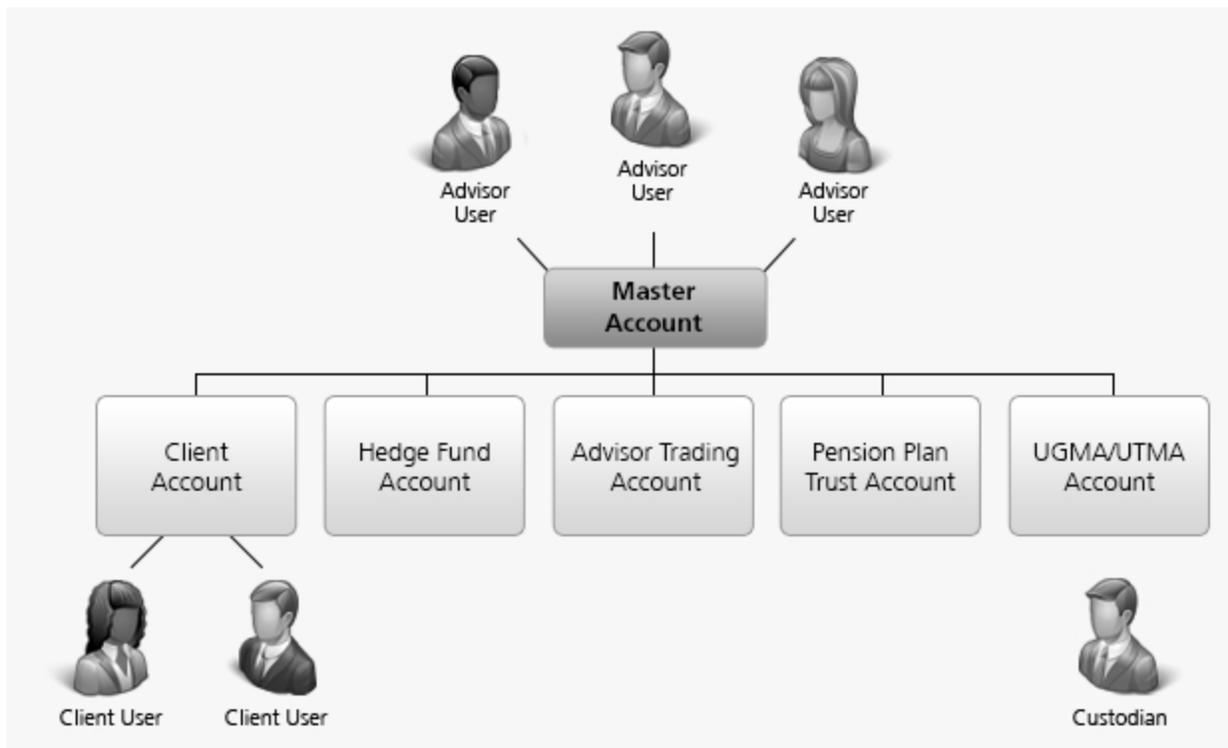

- » [Advisor Client Account Templates](#)
- » [Broker Client Account Templates](#)

Advisors and Fully Disclosed Brokers can also:

- » [Manage Registration Tasks for a Client Account](#)

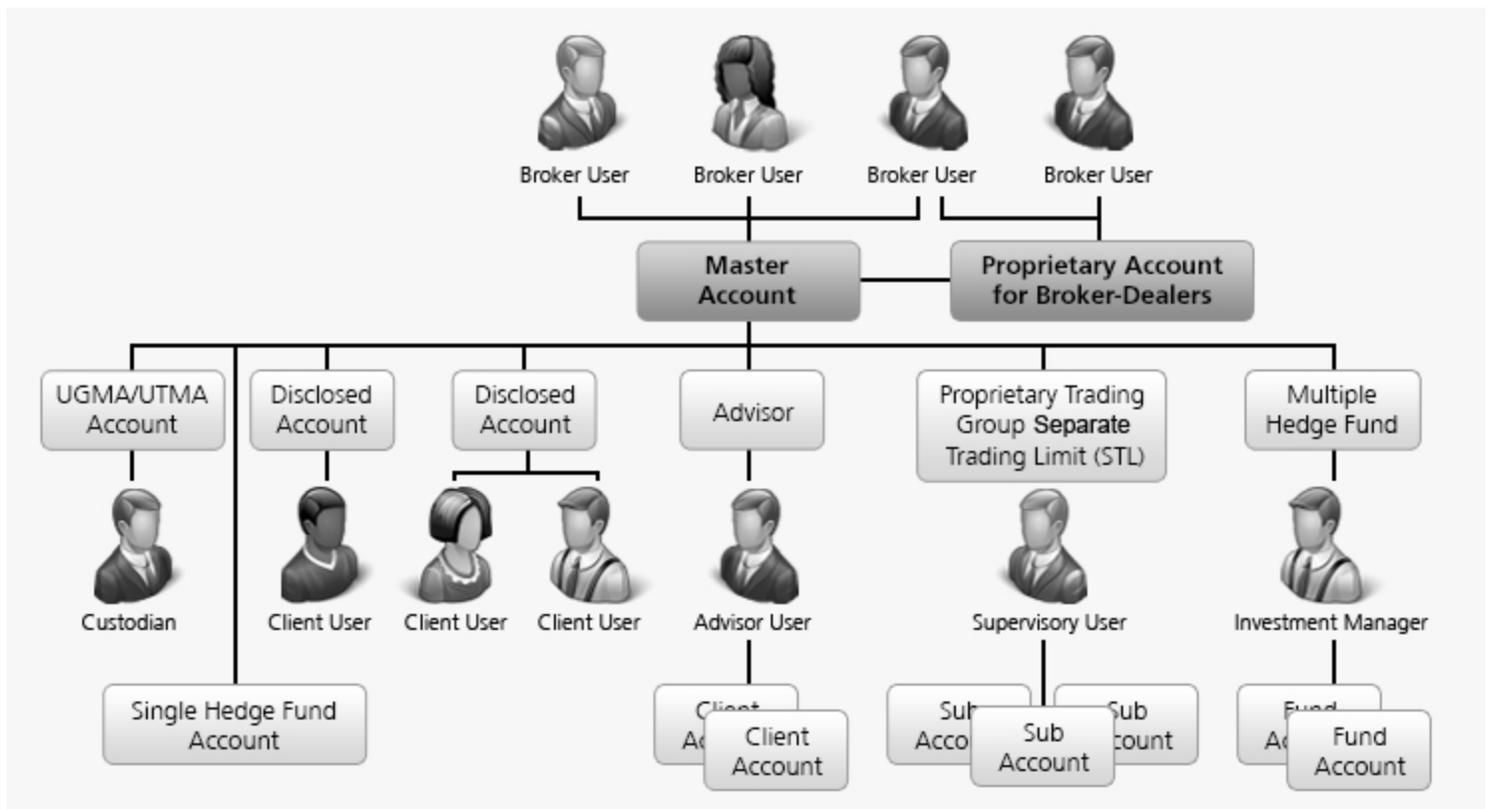

Registered Advisor Account Structure

- » Advisors who manage client accounts in excess of state registration minimums (generally 16 or more accounts and US \$25 million in assets) must be registered under local regulatory law (e.g. Registered Investment Advisors (RIA) for US securities and Commodity Trading Advisors (CTA) for US commodities).
- » Advisor master account holders must be 21 or older.

Fully Disclosed Broker Account Structure

- » Fully disclosed brokers provide their clients with customer service and marketing. Broker clients can electronically trade or the broker may input trades for the client.
- » Fully disclosed brokers can open client accounts using fully electronic or semi-electronic applications.
- » Fully disclosed brokers can add Advisor, Proprietary Trading Group STL and Multiple Hedge Fund master accounts to their broker account structure. Each Advisor, Proprietary Trading Group STL and Multiple Hedge Fund master account holder can add client, sub and hedge fund accounts as required.
- » Brokers can trade for themselves in the Proprietary Account for Broker-Dealers.
- » All fees, commission and interest owed to the broker are first sent to the broker's Master account and then swept nightly to the Proprietary Account for Broker-Dealers.

Differences Between the Master Account and the Proprietary Account for Broker-Dealers

As a Fully Disclosed Broker, you will have two IB accounts in your name:

- » The Master Account, whose Account ID begins with an "I" prefix. Use this account to add client accounts and link existing client accounts. You can fund this account and can perform the tasks described [here](#).
- » The Proprietary Account for Broker-Dealers, which is used for the your own proprietary trading, as well as the collection of client fees, commissions and interest owed to you. The account ID for this account begins with a "U" prefix.

Apply Online - Registered Advisors

The following steps summarize how to open an Interactive Brokers Registered Advisor account from our website.

1. Begin the Advisor Electronic Application

From our website home page, click **OPEN AN ACCOUNT**, then click **Registered Advisor**, and then click **START APPLICATION**. This opens a new online application for a Registered Advisor master account.

You will be required to create a username and password at the beginning of the online application. This ensures that all of the information that you submit is secure. Record your login information; you will need it to access your saved applications and your live account once it has been approved. In many cases, the information provided electronically during the application is sufficient. However, we may require additional documentation.

2. Open Trading Account

During the master account application process, you will be asked if you would like to open a trading account for your own personal trading. If you choose to create a trading account at this time, you will be guided through a number of screens related to its creation. Since

this trading account will be permanently associated with your master account, we will reuse information from the master account application to eliminate the need for duplicate entry. Your master account is only used for placing trades on behalf of your clients, fee processing, collecting fees from clients, and paying fees to IB.

3. Fund Your Account

- Master Account - While you are not required to fund the master account, we highly recommend that funds equivalent to approximately six months worth of anticipated charges are placed into the account. If you do not have enough funds to cover your fees, market data and trading privileges may be suspended.
- Trading Account - If you have chosen to create a trading account, funds you intend to use for your own trading should be sent directly to this account. All deposits made are subject to certain [hold periods](#). This applies to internal transfers as well as withdrawals. Advisors who fund their master account intending to internally transfer to their trading account will only be able to do so after the applicable hold period expires.

Funding Methods

IB offers a variety of methods which can be used to fund your trading account:

- Check* (with your deposit instruction form, or your account number written on the check)
- Wire (call or visit your bank to initiate)
- Electronic Funds Transfer (ACH)

The following methods can be used to fund client accounts but CANNOT be used to fund your master account.

- Broker-to-Broker Transfer (ACATS/ATON)
- Futures Transfer
- Foreign Asset Transfer
- IB Internal Transfers

*Checks or bank drafts are not available for IB Canada customers.

-  **Note:** Any deposit instruction submitted for accounts that have not been funded 45 days from approval will be closed.

4. Application Review and Results

To ensure that you have completed all of the initial tasks required in the application process, you can log back into your application and review your entries and status. Click **OPEN ACCOUNT > Finish an Application** from our website menu. Only those applicants who have completed all required portions of the application will have their applications considered for review.

Fully completed applications are generally processed within 48 hours. You will be notified by email and through the Customer Service Message Center inside Account Management if any additional information is required.

5. Trading Account

If you chose to open a Trading Account during the master account application process, you will be able to begin trading once funds have been deposited into the Trading Account. In order to prevent potential delays in having funds credited to your account, we recommend that you deposit all funds for your own trading directly into the Trading Account. Funds received by 16:00 ET are available for trading the next business day under normal business circumstances. View the current status of your deposit or transfer in Account Management by clicking **Funding > Transaction History**.

6. Submit an Application for Each Client

You can initiate account applications for your clients in one of two ways: electronically or semi-electronically with paper signature. Both methods are accessible from Account Management.

- **Fully Electronic** (for fastest processing) - You send an invitation to your client, who completes an electronic application online.

- [Semi-Electronic](#) with paper signature - You and your client complete an electronic application online. At the end of the process, you print the application for your client to review and complete the deposit instructions and the security questions and answers section. The client then signs the application and sends it to IB Account Processing.

You can also create [client account templates](#) in Account Management to save and re-use application information for new client accounts.

You can log into Account Management at any time to see the status of your clients' applications. Advisors who want to open additional accounts for themselves at a later time must use one of the three methods listed above.

7. Client Account Funding

IB offers the same funding methods for client accounts. If we do not receive your client funds in 45 days from approval the account will be closed.

- Check* (with your deposit instruction form, or your account number written on the check)
- Wire (call or visit your bank to initiate), as specified in your deposit instructions to IB
- Electronic Funds Transfer (ACH)
- Broker-to-Broker Transfer (ACATS/ATON)
- Futures Transfer
- Foreign Asset Transfer
- IB Internal Transfers

*Checks or bank drafts are not available for IB Canada customers.

8. Client Application Review and Results

As the Advisor, you will be notified by email and through the Customer Service Message Center inside Account Management of the results of your client's application. IB will also notify your clients via postal mail of these results. Clients whose accounts have been approved will receive a welcome letter which contains instructions on how to access their accounts.

9. Trade Client Account

Once your client funds his or her account and the funds have been credited, you may begin to trade. Funds received by 16:00 ET are available for trading the next business day under normal business circumstances. View the current status of deposits or transfers in Account Management by clicking **Funding > Transaction History**.

10. Add Money Managers (optional)

Advisors who function as Wealth Managers select registered Money Managers and assign client accounts to them for trading purposes. Select Money Managers on the [Money Managers Assignment](#) page in Account Management. After you select Money Managers, assign client accounts to them, set client trading permissions and set client fees.

Visit the [Investors' Marketplace](#) on our website or inside Account Management to search for and contact Money Managers.

Electronic Advisor Client Applications

As a Registered Advisor with an Interactive Brokers Advisor account, you can send email invitations to your clients, who then complete their account applications completely electronically.

To send an invitation to a client to start an electronic application

1. Log in to Account Management, and then click **Manage Clients > Create and Link Accounts > Create > New**.

The Add Client Account page opens.

Add Client Account

We offer two methods for completing a client application; fully electronic and semi-electronic. Under the fully electronic method, you send an email invitation to the client and the client completes an electronic application. For the semi-electronic application, you complete the application electronically, print out a paper copy, your client signs the paper copy, and the application gets sent to us for processing.

Fully Electronic Application	(Send an invitation to initiate the electronic application process for a client.)	Client Invitation ➔
Semi Electronic Application	(Electronically complete client application, print, and send to client for signature.)	Electronic Client Application ➔

2. Click Client Invitation for a Fully Electronic Application.

The Advisor Client Invitation page opens.

Advisor Client Invitation

Your client will be responsible for making all *Account Management* changes or upgrades electronically.

Step 1 of 2: Choose one, then click Continue

» ProTrack (Stock, Options, Futures, Forex, Bonds, Mutual Funds, and CFDs for Individual, Joint, IRA, Trust Accounts and Small Business)

If you select ProTrack, you will be asked to set client fees.

» IB FastTrack US NonPro template (Stock Trading for Individual, Joint and IRA Accounts)

» Client Account Templates:

Choose One ▾

Use the predefined IB FastTrack Template for your clients to complete a **short** IB account application to trade stocks in one geographic location (your country of legal residence). Add more products and markets after your client's account has been activated. If you set Advisor Fees first, do not select the FastTrack template. If you do select the FastTrack Template, no Advisor Fees are set initially, but you will be able to configure Advisor Fees after the account has been activated.

What is included in a FastTrack Template?

Continue →

3. Select the type of application for your client:

- **ProTrack** - This is a full account application for Individual, Joint, IRA, Trust and Small Business clients who want to trade stocks, options, futures, forex, bonds, mutual funds, and CFDs.
- **Client Account Templates** - Select this option if you want to use a Client Account Template that you have created, and then select the desired template from the drop-down menu.

If you select ProTrack, you will be asked to set client fees.

- **IB FastTrack US NonPro template** - This is a short application for Individual, Joint and IRA clients who want to trade only stocks in their country of legal residence.

4. Click **Submit**.

The Client Fee Setup page opens.

Client Fee Setup

To activate any client schedule the client can sign the printed PDF fee schedule or the client can confirm the request in Account Management under Pending Requests.

- » Print the fee schedule, have it signed by your client, and return it along with a current Government issued ID (e.g. passport, driver's license, etc.) to Interactive Brokers for activation.
- » Click the **Generate PDF** button at the bottom of the page to print it, and send to your client for signature.
- » Your client can then send directly to IB for activation at the address/Fax number indicated on the form.

In addition to the advisor fees specified below, clients will be charged a [fee per trade](#) commission for execution and clearing services provided by Interactive Brokers.

No Fee

Automatic Billing

Direct Billing

5. Select the type of fees for the client:

- **No Fee** - An advisor chooses not to charge his or clients a fee for services rendered.
- **Automatic billing** - A calculated fee is automatically billed to the client's account with blanket client authorization. Be aware that Automatic Billing is subject to certain caps and limitations.

Choose one of several methods of automatic billing:

- Annualized Percentage of Net Liquidation Value
- Annualized Flat fee
- Percent of Profit and Loss (P&L)
- Fee per trade unit
- Monthly/Quarterly Invoicing - Advisors can submit electronic invoices for client fees. Invoices can be submitted for up to ten clients at a time, but only one invoice can be submitted per client account per day. Advisors can also upload a .csv file that contains multiple client invoices.

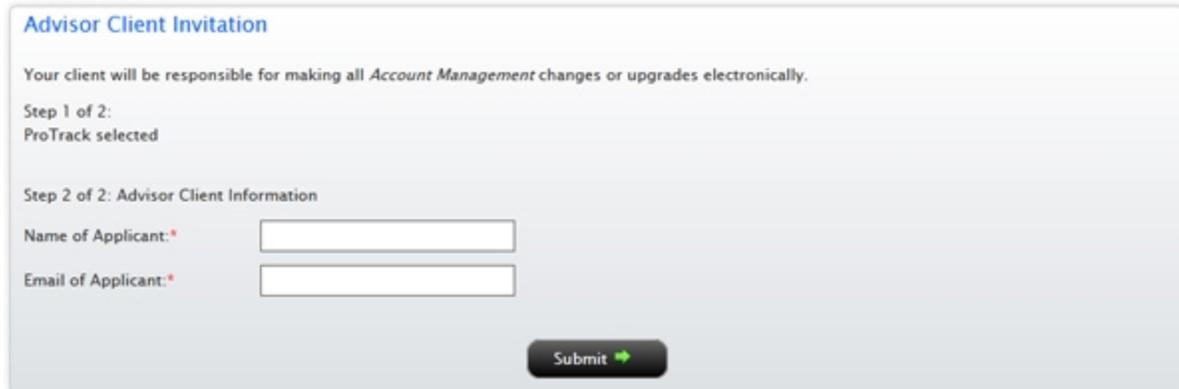

For more information about automatic billing, including examples see [Automatic Billing for Advisor Client Fees](#) in the Account Management Users' Guide.

- **Direct billing** - The Advisor bills the client directly. We will not remove funds from the client's account.

Regardless of the method chosen, the advisor determines the fees at the time of the client's registration and can modify them at any time. Advisor clients are required to acknowledge any fee increase with a signature.

 **Note:** In addition to the advisor client fees specified, clients will be charged a fee per trade commission for execution and clearing services provided by us.

6. Click **Continue**.

7. Enter the client's name and email address, then click **Submit**.

An email is sent to the client, inviting him or her to complete an account application electronically.

Semi-Electronic Advisor Client Applications

As a Registered Advisor with an Interactive Brokers Advisor account, you can add an account using a semi-electronic application. For this type of application, you complete the application electronically, print out a paper copy for the client to sign, then send the signed application to us for processing.

To start a semi-electronic application

1. Log in to Account Management, and then click **Manage Clients > Create and Link Accounts > Create > New**.

The Add Client Account page opens.

2. Click **Electronic Client Application**.
3. Select the type of client account you wish to open, then click **Continue**
4. The first page of the client application opens.
5. Follow the instructions on the screen to complete the electronic application.
6. When you have completed the electronic application process, print the completed application and send it to your client for his or her signature.

Advisor Client Account Templates

Client account templates let you save and reuse application information for new client accounts. You can [create](#), [modify](#) and [delete](#) client account templates. When you add client accounts from within Account Management, you will have the option of selecting a saved client account template, which will automatically complete portions of the client account application.

To create an advisor client account template

1. Log in to Account Management, and then click **Manage Clients > Create and Link Accounts > Create > Client Account Templates**.
2. In the Pick template list, click **Create**.

The screenshot shows a web interface for creating client account templates. At the top, there is a header 'Client Account Templates' with a brief description: 'Use this page to create client configuration templates for new client accounts. Client configuration templates let you re-use client information, including customer type, base currency and trading permissions, in multiple client account applications without having to re-enter the information in every application.'

Below the header, there are two main sections. The first section contains a 'Pick template:' dropdown menu with 'Create...' selected, and a 'New template name:' text input field with a red border. The second section contains several dropdown menus: 'Customer Type' (set to 'Organization'), 'Base Currency' (set to 'Choose One'), 'Funding Type' (set to 'Any'), 'Margin' (set to 'Choose One'), and 'Products' (empty).

3. In the new Template name field, type the name of the template.
4. In the Customer Type list, select a customer type (*Individual, Joint, IRA, Trust or Organization*).
5. In the Base Currency list, select the base currency for the client account.
6. In the Funding Type list, select the type of deposit that will be used to fund client accounts using this template.
7. In the Margin list, select the type of margin account (*Reg T* for a Reg T Margin account, *Cash* for a Cash account, *Portfolio* for a Portfolio Margin account or *Guaranteed Dollars and/or Cash Collateral*).

The following screen displays the available Trading Permissions for the selected Margin account type.

Client Account Templates

Use this page to create client configuration templates for new client accounts. Client configuration templates let you re-use client information, including customer type, base currency and trading permissions, in multiple client account applications without having to re-enter the information in every application.

- Select the advisor fee methodology (No Fee, Automatic Billing, or Direct Billing) by clicking the appropriate radio button, then click Continue.

 **Note:** This page is identical to the Client Fees page for advisors in the Manage Clients > Fees > Configure menu.

- Verify that all the information in the client template is correct, then click **Save**.

If any information is incorrect, click **Back**, then modify the information as required and click **Continue** until you return to the verification page.

When you begin the process of adding a new client account, you will be able to select your saved client account template.

To modify an existing client account template

1. Click **Manage Clients > Create and Link Accounts > Create > Client Account Templates**.
2. In the Pick template list, click the existing template you want to modify.
3. Make changes as required, clicking **Continue** to advance through the pages.
4. Verify that all the information in the client template is correct, then click **Save**.

To delete an existing client account template

1. Click **Manage Clients > Create and Link Accounts > Create > Client Account Templates**.
2. In the Pick template list, click the existing template you want to delete.
3. Click **Delete**, then click **OK**.

The template is deleted.

Apply Online - Fully Disclosed Brokers

The following steps summarize how to open an Interactive Brokers Fully Disclosed Broker account from our website.

1. Begin the Broker Electronic Application

From our website home page, click **OPEN AN ACCOUNT**, then click **Broker**, and then click **START APPLICATION**. This opens a new online application for a Broker master account.

You will be required to create a username and password at the beginning of the online application. This ensures that all of the information that you submit is secure. Record your login information; you will need it to access your saved applications and your live account once it has been approved. In many cases, the information provided electronically during the application is sufficient. However, we may require additional documentation.

2. Submit Financial, Disciplinary and Identification Documents

US regulators require that Interactive Brokers receive and review certain financial, disciplinary and identification documents from its brokers before approving the account. These documents will be requested during the application process or by your IB sales representative. All documents should be forwarded to the addresses listed on the [Contact Us > Fax/Postal](#) page on the IB website.

3. Fund Your Account

Your broker account consists of multiple accounts at different levels, and can include multiple users who have permissions to manage one or multiple accounts. The master account is used for the billing of market data and research subscriptions for your own trading. The Proprietary Account for Broker-Dealers is used to collect client fees and other funds owed to the broker, credit a client account, and proprietary trading for the broker.

Funding Methods

IB offers a variety of methods which can be used to fund your account:

- Check* (with your deposit instruction form, or your account number written on the check)
- Wire (call or visit your bank to initiate)
- Electronic Funds Transfer (ACH)

The following methods can be used to fund client accounts but CANNOT be used to fund your master account.

- Broker-to-Broker Transfer (ACATS/ATON)
- Futures Transfer
- Foreign Asset Transfer
- IB Internal Transfers

*Checks or bank drafts are not available for IB Canada customers.

All deposits made are subject to certain [hold periods](#). To prevent any delays in the funding of your account, we strongly recommend that you complete the funding portion of your account application.

4. Application Review and Results

To ensure that you have completed all of the initial tasks required in the application process, you can log back into your application and review your entries and status. Click **OPEN ACCOUNT > Finish an Application** from our website menu. Only those applicants who have completed all required portions of the application will have their applications considered for review.

If you will be introducing securities trades, IB is required to submit your application to the New York Stock Exchange for approval. This process generally takes 2-3 weeks.

5. Trade

If we have received your funds you may begin to trade in the master account. Funds received by 16:00 ET are available for trading the next business day under normal business circumstances. View the current status of your deposit or transfer in Account Management by clicking **Funding > Transaction History**.

6. Open Client Accounts

You can initiate account applications for your clients in one of two ways: electronically or semi-electronically with paper signature. Both methods are accessible from Account Management.

- [Fully Electronic](#) (for fastest processing) - You send an invitation to your client, who completes an electronic application online.
- [Semi-Electronic](#) with paper signature - You and your client complete an electronic application online. At the end of the process, you print the application for your client to review and complete the deposit instructions and the security questions and answers section. The client then signs the application and sends it to IB Account Processing.

You can also create [client account templates](#) in Account Management to save and re-use application information for new client accounts.

You can log into Account Management at any time to see the status of your clients' applications.

7. Clients Fund Their Own Accounts

IB offers the same funding methods for client accounts. If we do not receive your client's funds in 45 days from approval the account will be closed.

- Check* (with your deposit instruction form, or your account number written on the check)
- Wire (call or visit your bank to initiate), as specified in your deposit instructions to IB
- Electronic Funds Transfer (ACH)
- Broker-to-Broker Transfer (ACATS/ATON)
- Futures Transfer
- Foreign Asset Transfer
- IB Internal Transfers

*Checks or bank drafts are not available for IB Canada customers.

8. Client Application Review and Results

You and your clients can view the application review results by logging in to Account Management (clients log in with their own account credentials).

9. Client Trading

If we have received funds for your client, they may begin to trade. Funds received by 16:00 ET are available for trading the next business day under normal business circumstances. You and your clients can view the current status of deposits or transfers in Account Management by clicking **Funding > Transaction History** (clients log in with their own account credentials).

Electronic Broker Client Applications

As a Broker with an Interactive Brokers Advisor account, you can send email invitations to your fully disclosed clients, who then complete their account applications completely electronically.

To send an invitation to a client to start an electronic application

1. Log in to Account Management, and then click **Manage Clients > Create and Link Accounts > Create > New**.

The Add Client Account page opens.

Add Client Account

We offer two methods for completing a client application; fully electronic and semi-electronic. Under the fully electronic method, you send an email invitation to the client and the client completes an electronic application. For the semi-electronic application, you complete the application electronically, print out a paper copy, your client signs the paper copy, and the application gets sent to us for processing.

Fully Electronic Application	(Send an invitation to initiate the electronic application process for a client.)	Client Invitation →
Semi Electronic Application	(Electronically complete client application, print, and send to client for signature.)	Electronic Client Application →

2. Click **Client Invitation** for a Fully Electronic Application.

The Broker Client Invitation page opens.

Broker Client Invitation

In order to initiate an electronic client application, please complete the following step so that we may provide a client invitation.

Broker Client Information

Name of Applicant:

Email of Applicant:

Optionally, pick a template for the client account:

Use the predefined IB FastTrack Template for your clients to complete a **short** IB account application to trade stocks in one geographic location (your country of legal residence). Add more products and markets after your client's account has been activated. What is included in a FastTrack Template?

Optionally, pick a Registered Representative for the client account:

Continue →

3. Enter the name and email address of the applicant, then click **Continue**.
4. If you have created and saved a client account template, select it from the Client Account Templates list. Client account templates include a selected fee methodology, so you don't have to specify fees if you use a client account template. This field does not appear if you do not have any saved client account templates.
5. Optionally, select a Registered Representative for the client account from the drop-down. A Registered Representative is a person who manages the relationship between a broker and his or her client(s). For more information, see [Registered Representatives](#) in the Account Management Users' Guide.

A confirmation page opens to inform you that the invitation has been sent to the applicant's email address.

6. Click **Continue**.

An email is sent to the client, inviting him or her to complete an account application electronically.

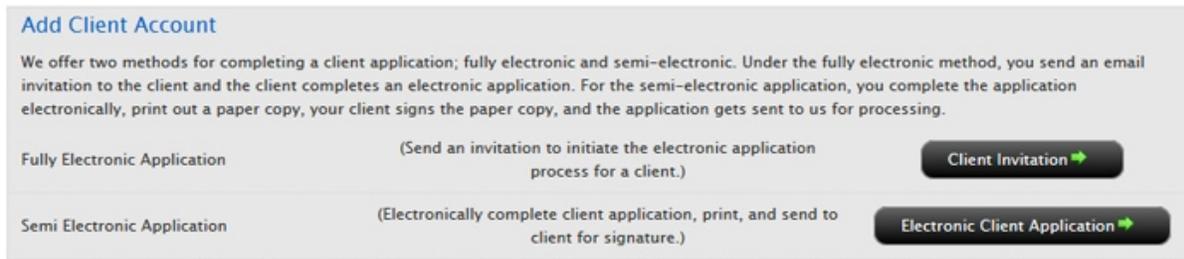

Semi-Electronic Advisor Client Applications

As a Broker with an Interactive Brokers account, you can add a fully disclosed client account using a semi-electronic application. For this type of application, you complete the application electronically, print out a paper copy for the client to sign, then send the signed application to us for processing.

To start a semi-electronic application

1. Log in to Account Management, and then click **Manage Clients > Create and Link Accounts > Create > New**.

The Add Client Account page opens.

2. Click **Electronic Client Application**.
3. Select the type of client account you wish to open, then click **Continue**
4. The first page of the client application opens.
5. Follow the instructions on the screen to complete the electronic application.
6. When you have completed the electronic application process, print the completed application and send it to your client for his or her signature.

Broker Client Account Templates

Client account templates let you save and reuse application information for new client accounts. You can [create](#), [modify](#) and [delete](#) client account templates. When you add client accounts from within Account Management, you will have the option of selecting a saved client account template, which will automatically complete portions of the client account application.

To create an advisor client account template

1. Log in to Account Management, and then click **Manage Clients > Create and Link Accounts > Create > Client Account Templates**.
2. In the Pick template list, click **Create**.

Client Account Templates

Use this page to create client configuration templates for new client accounts. Client configuration templates let you re-use client information, including customer type, base currency and trading permissions, in multiple client account applications without having to re-enter the information in every application.

Pick template:

New template name:

Customer Type:

Base Currency:

Funding Type:

Margin:

Products:

3. In the new Template name field, type the name of the template.
4. In the Customer Type list, select a customer type (*Individual, Joint, IRA, Trust or Organization*).
5. In the Base Currency list, select the base currency for the client account.
6. In the Funding Type list, select the type of deposit that will be used to fund client accounts using this template.
7. In the Margin list, select the type of margin account (*Reg T* for a Reg T Margin account, *Cash* for a Cash account, *Portfolio* for a Portfolio Margin account or *Guaranteed Dollars and/or Cash Collateral*).

The following screen displays the available Trading Permissions for the selected Margin account type.

Client Account Templates

Use this page to create client configuration templates for new client accounts. Client configuration templates let you re-use client information, including customer type, base currency and trading permissions, in multiple client account applications without having to re-enter the information in every application.

ArcaBook Opt. (P,L2) (explain)	United States	60.00 USD <input type="checkbox"/>

 **Note:** This page is identical to the Market Data Subscriptions page in the Manage Clients > Fees > Configure menu.

12. Enter the client fees on a fee-per-trade basis and interest markups and markdowns that will be associated with this client account template, then click Continue.
13. Verify that all the information in the client template is correct, then click Save.
 - If any information is incorrect, click **Back**, then modify the information as required and click **Continue** until you return to the verification page.

When you begin the process of adding a new client account, you will be able to select your saved client account template.

To modify an existing client account template

1. Click **Manage Clients > Create and Link Accounts > Create > Client Account Templates**.
2. In the Pick template list, click the existing template you want to modify.
3. Make changes as required, clicking **Continue** to advance through the pages.
4. Verify that all the information in the client template is correct, then click **Save**.

To delete an existing client account template

1. Click **Manage Clients > Create and Link Accounts > Create > Client Account Templates**.
2. In the Pick template list, click the existing template you want to delete.
3. Click **Delete**, then click **OK**.

The template is deleted.

Manage Registration Tasks for Client Accounts

We give Advisors and Fully Disclosed Brokers several ways to manage and track the progress of client account applications in the Dashboard in Account Management:

- » [Download a list of outstanding registration tasks for all pending client accounts to Microsoft Excel.](#)
- » [View all registration tasks.](#)
- » [Generate a PDF version of the account application.](#)
- » [Delete a pending client account application.](#)

Fully Disclosed Brokers can also:

- » [Approve or reject pending client applications and pending client options trading permissions.](#)
- » [View application and options trading approvals for all accounts.](#)
- » [See which user deleted client account applications.](#)

Advisors can also:

- » [View pending items for all client accounts.](#)

The Dashboard

Use the Dashboard in Account Management to quickly and easily access information about your clients and their account applications, and drill down to view and manage information for individual client accounts.

Both Advisors and Brokers can use the Dashboard to:

- » View a list of all client accounts.
- » View recent activity for the past five days for all client accounts.
- » Search for and sort client accounts by account title, account type, account number, user-name or account alias.
- » Filter all client accounts by account status.
- » Download a list of outstanding registration tasks for all pending client accounts to Microsoft Excel.
- » Download information about all client accounts to Microsoft Excel.
- » Drill down to view complete details of and perform editing and reporting tasks for each client account.

In addition, Advisors and Brokers can each perform additional tasks in the Dashboard.

 **Note:** For more detailed information about the Dashboard, see [Dashboard](#) in the Account Management Users' Guide.

Here is a typical Advisor Dashboard:

To download a list of outstanding registration tasks for all pending client accounts to Microsoft Excel

You can download an Excel spreadsheet (.xls file) that includes all registration tasks for your pending client or fund accounts (i.e., all tasks related to the opening of all of your pending client or fund accounts). The Excel file shows the Account ID, tasks and current status of each tasks for all pending client or fund accounts.

1. Log in to Account Management, and then click **Manage Clients > Dashboard**.
2. Click the **Registration Tasks** button located at the top right of the screen.

3. You will be prompted to open or save a Microsoft Excel worksheet. Save the file to your computer.

To view all registration tasks for a specific client account

1. Log in to Account Management, and then click **Manage Clients > Dashboard**.
2. Search or sort the account list to find the account of interest, and then click the account row to display the Client Account Details page for that client.
3. At the bottom of the Client Account Details page, click the **Registration Tasks** button.
4. A popup showing all registration tasks for the client or fund account opens. Click the red **X** in the upper right corner to close the popup.

When viewing registration tasks, Fully Disclosed Brokers can also view supporting documents sent by a client and received by us.

Online tasks to be completed	
Registration Task	Status
Account Configuration	Completed On 16 Mar 2015
Customer Agreement (v2)	Completed On 16 Mar 2015
Customer Financial Info	Completed On 20 Mar 2015
E-mail Confirmation	Completed On 16 Mar 2015
Funding Notification	Completed On 16 Mar 2015
Individual Regulatory Info	Completed On 16 Mar 2015
Legal Acknowledgement	Completed On 16 Mar 2015
Sole Holder Name/Address	Completed On 16 Mar 2015
Sole Holder Personal Info	Completed On 16 Mar 2015
Trading Control and Ownership Certification	Completed On 16 Mar 2015
Username/Account ID Confirmation	Completed On 16 Mar 2015
W9	Completed On 16 Mar 2015

Tasks that do not need client input		
Registration Task	Status	Details
Ofac Search for Mr. [REDACTED] (Account Holder)	To be done	Pending other steps
Equifax report for Equifax for Mr. [REDACTED] (Account Holder)	To Be Completed	Last Update on: 16 Mar 2015

To generate a PDF version of a client's account application

From the Client Account Details page, you can also generate a PDF of the client or fund account application.

1. Log in to Account Management, and then click **Manage Clients > Dashboard**.
2. Search or sort the account list to find the account of interest, and then click the account row to display the Client Account Details page for that client.
3. At the bottom of the Client Account Details page, click the **Generate Client PDF** button.

A PDF file of the client application opens. You can print the application from the PDF.

To delete a pending client account application

You can delete any pending client or fund account application from the Client Account Details page for the pending account.

1. Log in to Account Management, and then click **Manage Clients > Dashboard**.
2. Select *Pending Applications* from the Status drop-down. The list of accounts updates to display only pending client accounts.
3. Click the desired account row to display the Client Account Details page.
4. Click the **Delete Application** button at the bottom of the page to open the application.
 - If you are sure you want to delete the account, click **Submit**.
 - If you change your mind and do not want to delete the application, click Back.

To approve or reject pending client applications and client options trading permissions (Brokers only)

Fully Disclosed Brokers can approve or reject pending client applications and pending client options trading permissions if they have enabled Client Approvals. Use the Manage Clients > Settings > Client Approvals page in Account Management to enable or disable the approval of all client applications and options trading permissions for all clients. If you enable approval, all client applications and all client requests for options trading permissions must be approved by you before they are submitted to us.

1. Log in to Account Management, and then click **Manage Clients > Dashboard**.
2. Search or sort the account list to find the account of interest, and then click the account row to display the Client Account Details page for that client.
3. Click the **Accept or Reject Application** button at the bottom of the page.
4. In the popup window that opens, select *Yes* or *No* from the Approve drop-down, add an optional comment, and then click **Submit**.

Note: For more information about client approvals, see [Broker Client Approvals](#) in the Account Management Users' Guide.

To view application and options trading approvals for all accounts (Brokers only)

Fully Disclosed Brokers can view application and options trading approvals in the Approvals column on the Dashboard if they have enabled Client Approvals. Use the Manage Clients > Settings > Client Approvals page in Account Management to enable or disable the approval of all client applications and options trading permissions for all clients. If you enable approval, all client applications and all client requests for options trading permissions must be approved by you before they are submitted to us.

1. Log in to Account Management, and then click **Manage Clients > Dashboard**.
 - Approvals are marked with a small green check mark and show the username of the approver and the date of the approval.
 - Rejected applications and option trading requests are marked with a small red X along with the username of the rejecter and the date of rejection.

 **Note:** For more information about client approvals, see [Broker Client Approvals](#) in the Account Management Users' Guide.

To see which user deleted a client account application (Brokers only)

1. Log in to Account Management, and then click **Manage Clients > Dashboard**.
2. Select *Deleted Applications* from the Status drop-down. The list of accounts updates to display only deleted client applications.
3. Look at the Approval Status column to see the username of the person who deleted the application and the date on which the application was deleted.

 **Note:** You can also click the desired account row to open the Client Account Details page for the deleted account, where you can view the same information.

To view pending items for all client accounts (Advisors only)

1. Log in to Account Management, and then click **Manage Clients > Dashboard**.
2. Search or sort the account list to find the account of interest, and then click the account row to display the Client Account Details page.
3. Click the **Pending Items** tab to view all pending items for the account.

White Branding

As a Professional Advisor or Broker, you can use your own banners for White Branding purposes. White Branding gives you the ability to display your own logos and company information on our registration system (account applications), Account Management, statements and PortfolioAnalyst, as well as emails, Trader Workstation, WebTrader, the TWS Users' Guide and our contract database. White Branding is a great marketing tool that will also give your customers the impression that you are offering a complete package of in-house trading tools and supporting products.

 **Note:** When you white brand the Interactive Brokers Registration System (account application), you also white brand Account Management, statements and PortfolioAnalyst reports. You cannot white brand ONLY the account application and not Account Management, reports or PortfolioAnalyst.

White Branding Rules

The following rules apply to white branding:

- » The main banner requires a 650 x 80 jpg or png image.
- » Images each need to be less than 50 KB in size.
- » Do not use the Interactive Brokers logo in your White Branding banner. IB cannot endorse any Advisor/Broker in any banner.
- » The IB Customer Agreement and any other agreement cannot be white branded.
- » IB disclosures or other documents cannot be white branded.

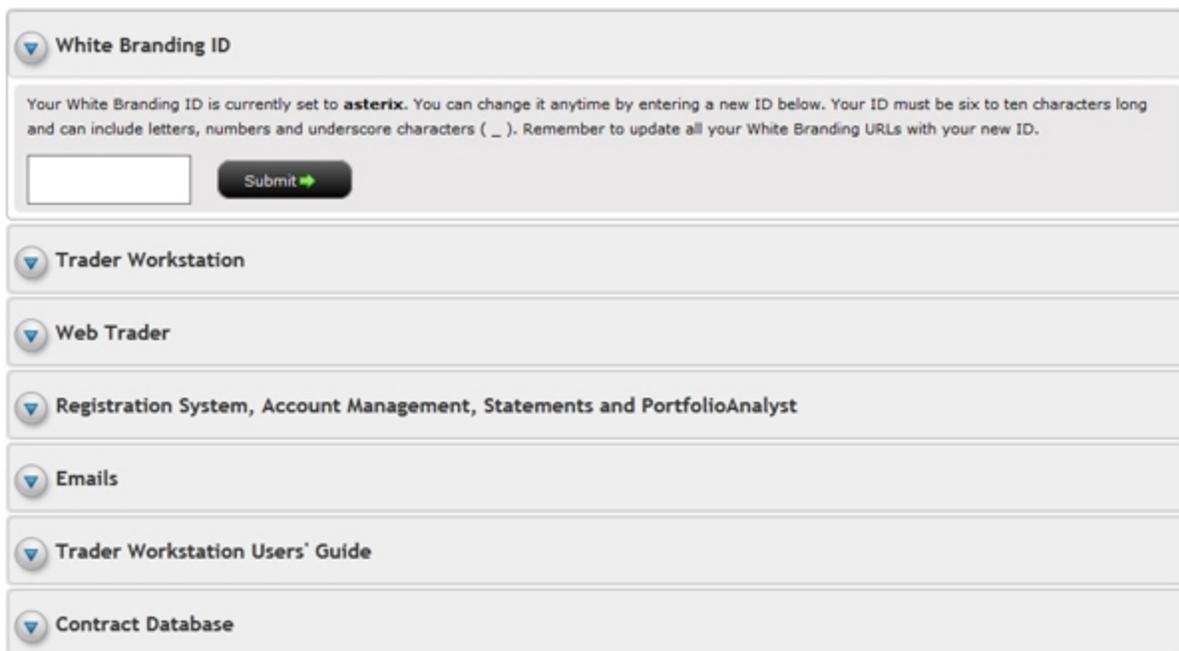

For more information, contact us at whitebranding@interactivebrokers.com.

How to Set Up White Branding

 **Note:** This procedure assumes that you have already opened your Advisor or Broker Master account.

To white brand Account Management, the Registration System and Statements

1. Log into Account Management.
2. Click **Manage Account > Settings > White Branding**.
3. Click **White Branding ID** to open that section, then enter a White Branding ID from six to ten characters long including letters, numbers and underscore characters (_). You can change your White Branding ID at any time.

White Branding ID

Your White Branding ID is currently set to **asterix**. You can change it anytime by entering a new ID below. Your ID must be six to ten characters long and can include letters, numbers and underscore characters (_). Remember to update all your White Branding URLs with your new ID.

Trader Workstation

Web Trader

Registration System, Account Management, Statements and PortfolioAnalyst

Emails

Trader Workstation Users' Guide

Contract Database

4. Click **Submit**. Remember to update all your White Branding URLs with your new ID.
5. Click **Registration System, Account Management, Statements and PortfolioAnalyst** to open that section.

Registration System, Account Management, Statements and PortfolioAnalyst

Brokers and Professional Advisors can upload their own banners to Interactive Brokers to White Brand the IB Registration System, Account Management, Activity Statements and PortfolioAnalyst. The banner is a 650x80 jpg or png image. The images must be less than 50KB in size.

Do not use the Interactive Brokers logo in your White Branding banner. IB cannot endorse any Advisor/Broker in any banner.

Once you have uploaded your banners and completed the form below, your White Branded link will be: <https://www.clientam.com/sso/Login?partnerID=54629>.

White Branding Name

The White Branding name is a substitute for "Interactive Brokers LLC" on client account management and registration pages.

White Branding Name:

Upload Banner

Click the Upload File links to upload your banner images.

Account Management Banner: [view banner](#) Upload File (650x80 jpg OR png)

Investor's Marketplace

Hide Investor's Marketplace:

Customer Service

You can substitute IB's customer support links at the top of the Account Management menu with a link to your own customer service page by entering the URL to that page below (e.g. <http://www.yourcompany.com/customerservice.html>).

Hide IB Customer Service Tools:

Customer Service URL:

Click **Submit** to save your Registration System and Account Management Banner White Branding settings. The Registration System and Account Management will be White Branded the next time you or your client(s) log in (browser cache might have to be refreshed). Statements will be updated within 24 hours.

6. Follow the instructions on the screen to enter the required information:

- White Branding Name - Substitute "Interactive Brokers LLC" on client account management and registration pages with your own company name.
- Upload Banner - Upload your own banner image to be used in the client account application, Account Management, statements and PortfolioAnalyst. The image must be a 650 x 80 pixel jpg or png file.
- Hide Investors' Marketplace - Click the check box to hide Investors' Marketplace from your clients.
- Customer Service - Substitute IB's customer support links at the top of the Account Management menu with a link to your own customer service page by entering the URL to

that page in the field provided (e.g. <http://www.yourcompany.com/customerservice.html>). You can also choose to hide the Customer Service Tools from your clients in Account Management by clicking the **Hide IB Customer Service Tools** check box.

7. Click **Submit**. Once you have uploaded your banners and completed the form, your White Branded link will be: **<https://www.clientam.com/sso/Login?partnerID=XXX123>** where XXX123 is your White Branding ID. This is the link that will appear in white branded client invitation emails.

Account Management and Registration System white branding takes effect the next time you or your client(s) log in (you may have to refresh your browser cache). Statement white branding takes effect within 24 hours.

8. Click **Emails** to open that section.

Emails

Emails are sent to customers from the Registration System, Account Management and by Customer Service. Use the fields below to customize the letters or emails to be White Branded.

Return Email Address

whitebranding@interactivebrokers.com (e.g. customerservice@yourcompany.com)

Email Signature

White Branding Demo

Disable Email White Branding

If you wish to keep the settings above but disable white branding emails, check:

Email white branding changes take effect within 24 hours.

Delete Email Settings Save Email Settings

9. Emails, including as your initial Client Account Invitation email, are sent from the Registration System to your clients (as well as from Account Management and Customer Service). Enter your return email address and an email signature in the fields provided, and then click **Save Email Settings**.

Email white branding changes take effect within 24 hours.

 **Note:** You can disable email white branding if you do not want your own company banner to appear on emails to your clients. Click the **Disable Email White Branding** check box to do this.

Next Step: Click one of the following links to learn more about sending electronic account application invitations to your clients.

- » [Send Advisor Client Invitations](#)
- » [Send Broker Client Invitations](#)

Additional White Branding Options

In addition to white branding our registration system (account application), Account Management, statements, PortfolioAnalyst and email, Advisors and Brokers can also white brand:

- » Trader Workstation
- » WebTrader
- » Trader Workstation Users' Guide
- » IB Contract Database

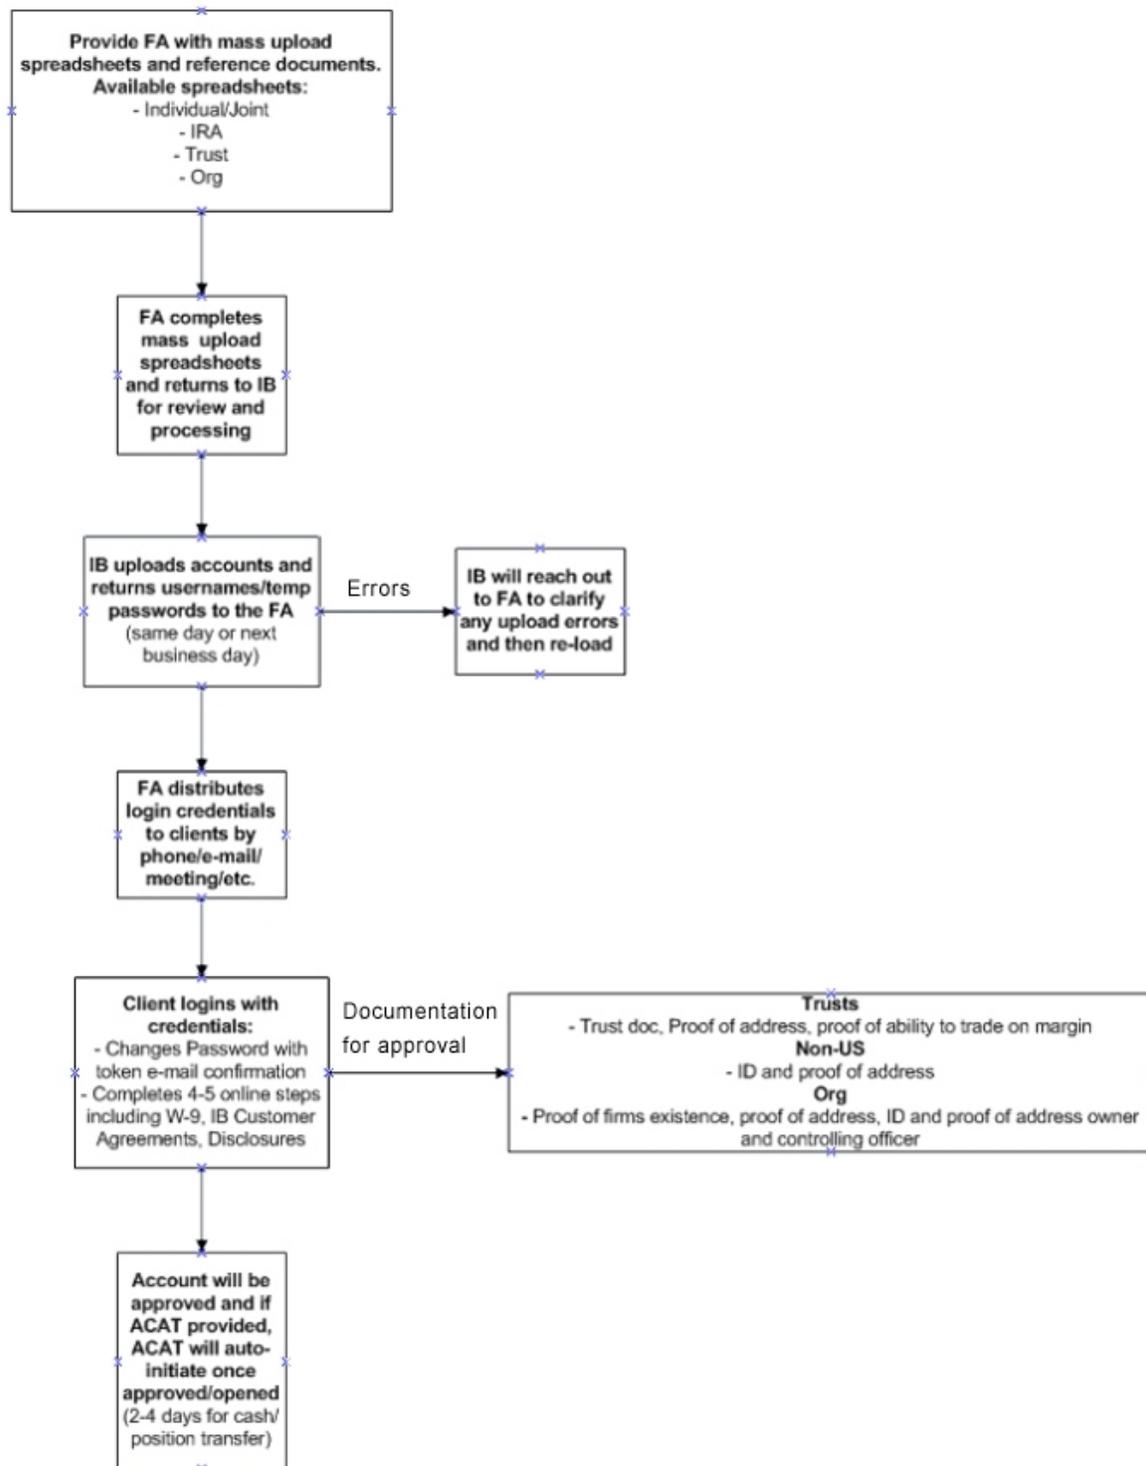

For detailed instructions, see [White Branding](#) in the Account Management Users' Guide.

Mass Upload

We provide Advisors with the ability upload multiple client accounts to our system using a single Excel workbook. To do this, follow the simple steps below.

1. Contact your Sales Representative or send an email to salesengineering@interactivebrokers.com to request mass upload.
2. We will send you an Excel workbook and a link to this guide.
3. The Excel workbook allows you to enter information for multiple client accounts in a single file. The Excel file we send you has been divided into sections, with each section displayed on one or more worksheets to make it easier for you to enter the required information. The sections of the Excel workbook are:
 - [Customer Information](#)
 - [Joint Account Information](#)
 - [IRA Information](#)
 - [Account Information](#)
 - [ACATs](#)
 - [ACH Instructions](#)
4. When you have completed filling in all of your clients' information in the Excel workbook, submit it to your Sales Representative or send it to us at the email listed above.
5. Once we finish adding all of your clients' information into our system, we will send you a secure file listing all of their new IB account usernames and passwords. Have each client sign into their IB account applications by clicking **Continue or Finish Your Application** from the **OPEN ACCOUNT** menu on our website.
6. Each client should change his or her password and will complete several online steps.
7. Once all customer agreements, disclosures, required identity documents and account funding are completed for each client account, the accounts are approved.

The following diagram shows the steps in the mass upload process.

Customer Information

The Excel workbook displays customer information in a number of fields displayed on several worksheets. The following topics contain complete reference information for all of the fields on these worksheets, including whether or not a field is required and the correct values for each field.

- » [Customer Information Worksheet Fields](#)
- » [W-9/W-8BEN Worksheet Fields](#)
- » [Employment Information Worksheet Fields](#)
- » [Financial Information Worksheet Fields](#)
- » [Regulatory Information Worksheet Fields](#)

Customer Information Worksheet Fields

Refer to the following table when completing the fields on the Customer Information and Second Holder Information (for Joint accounts) worksheets in your Mass Upload Excel workbook.

Field Name	Required	Documentation
Customer ID	Y	A unique id to map customer information from worksheet to worksheet. Use alphanumeric characters only or current account id at your firm.
Salutation	Y	One of: <ul style="list-style-type: none"> » Mr. » Mrs. » Ms. » Dr.
First name	Y	
Last name	Y	
Middle name	N	Include middle initial only.
Suffix	N	

Field Name	Required	Documentation
Home street address	Y	P.O. boxes or “in care of” addresses not accepted.
City	Y	
State/Province	Y	2-letter code.
Country	Y	3-letter country code.
Zip	Y	
Phone number (1)	Y	###-###-#### format.
Phone number (2)	N	###-###-#### format.
Fax	N	###-###-#### format.
Email address	Y	If including two or more, please add comma to separate.
Date of birth	Y	MM/DD/YYYY format.
Gender	Y	Male or Female
Marital status	Y	One of: <ul style="list-style-type: none"> » Single » Married » Divorced » Widowed
Dependents	Y	0 through 5. Select 5 for 5 or more dependents.
Country of citizenship	Y	ISO 3166-1 for 3-letter country codes (http://www.iso.org).

Field Name	Required	Documentation
		» National Identity Card
Country of issuance	Y	ISO 3166-1 for 3-letter country codes (http://www.iso.org).
Number	Y	

W-9 and W8BEN Fields

Refer to the following table when completing the fields on the W-9 and W-8BEN (if applicable) worksheets and the Joint W-9 and W--8BEN (for Joint accounts) worksheets in your Mass Upload Excel workbook.

W-9 Fields

Field Name	Required	Documentation
Customer ID	Y	A unique ID to map customer information from worksheet to worksheet. Use alphanumeric characters only or current account ID at your firm.
Name as on Tax Return	Y	
Certify TIN is Correct	Y	The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me)
Agrees to certification 2 in part ii	Y	I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding.
Certify US Person	Y	I am a U.S. Citizen or other U.S. Person.

Field Name	Required	Documentation
Customer Type	Y	One of: » INDIVIDUAL » JOINT » TRUST » ORG » IRA

W-8BEN Fields

Field Name	Required	Documentation
Customer ID	Y	A unique ID to map customer information from worksheet to worksheet. Use alphanumeric characters only or current account ID at your firm.
Name of Beneficial Owner in Part I	Y	
Agree to Part III Certification		<p>Under penalties of perjury, I declare that I have examined the information on this form and to the best of my knowledge and belief it is true, correct, and complete. I further certify under penalties of perjury that:</p> <ul style="list-style-type: none"> » I am the individual that is the beneficial owner (or am authorized to sign for the individual that is the beneficial owner) of all the income to which this form relates or am using this form to document myself as an individual that is an owner or account holder of a foreign financial institution, » The person named on line 1 of this form is not a U.S. person, » The income to which this form relates is: not effectively connected with the conduct of a trade or business in the United States, effectively connected but is not subject to tax under an income tax treaty, or the partner's share of a partnership's effectively connected income, » The person named on line 1 of this form is a resident of the treaty country listed on line 9 of the form (if any) within the meaning of the income tax treaty between the United

Field Name	Required	Documentation
		<p>States and that country, and</p> <p>» For broker transactions or barter exchanges, the beneficial owner is an exempt foreign person as defined in the instructions. - I agree that I will submit a new form within 30 days if any certification made on this form becomes incorrect. I agree under penalty of perjury that each certification above is true and correct and confirm I have reviewed the information on this form W-8BEN (including any prepopulation) and it is true and correct. I consent to the collection and distribution of tax forms in an electronic format in lieu of paper, including through the account management portal.</p>

Employment Information Fields

Refer to the following table when completing the fields on the Employment Information and Second Holder Employment Information (for Joint accounts) worksheets in your Mass Upload Excel workbook.

Field Name	Required	Documentation
Customer ID	Y	A unique ID to map customer information from worksheet to worksheet. Use alphanumeric characters only or current account ID at your firm.
Employment type	Y	<p>One of:</p> <ul style="list-style-type: none"> » Employed » Self-Employed » Retired » Unemployed » Student/Intern » At-Home Trader » Homemaker
Occupation	Y	One of the occupations listed here .
Name of employer	Y (if employed)	

Field Name	Required	Documentation
Nature of employer business/activities	Y (if employed)	
Employer address	Y (if employed)	P.O. boxes or "in care of" addresses not allowed.
City	Y (if employed)	
State/Province	Y (if employed)	ISO 3166-1 for 2-letter state codes (http://www.iso.org)
Country	Y (if employed)	ISO 3166-1 for 3-letter country codes (http://www.iso.org)
Zip	Y (if employed)	

Financial Information Fields

Refer to the following table when completing the fields on the Financial Information worksheet in your Mass Upload Excel workbook.

Field Name	Required	Documentation
Customer ID	Y	A unique ID to map customer information from worksheet to worksheet. Use alphanumeric characters only or current account ID at your firm.
Investment objectives	Y	<p>Possible values:</p> <ul style="list-style-type: none"> » Preservation of capital » Income » Growth » Trading Profits » Speculation » Hedging <p>*Trading Profits must be selected for Options. Preservation of Capital cannot be</p>

Field Name	Required	Documentation
		selected for Options.
Estimated net worth	Y	In base currency, exclude value of residence.
Estimated liquid net worth	Y	In base currency, exclude value of residence.
Annual net income	Y	In base currency.
Other sources of funds	Y	If customer is unemployed, retired, student/intern or homemaker, enter one of: <ul style="list-style-type: none"> » Consulting » Disability » Inheritance » Interest » Other (if other, specify) » Real Estate » Rental » Severance » Spouse » Trading & Investments » Unemployment
Percentage	Y	If customer is unemployed, retired, student/intern or homemaker, enter up to 100 (percent) for other sources of funds.
Description	Y	Only if Other is selected for Other sources of funds.
Total Assets	Y	
Specify below for Stocks, Bonds, Options, Futures and FX		
Years of trading experience	Y	
Number of trades per year	Y	
Knowledge	Y	One of:

Field Name	Required	Documentation
level		<ul style="list-style-type: none"> » Extensive » Good » Limited

Regulatory Information Fields

Refer to the following table when completing the fields on the Regulatory Information worksheet in your Mass Upload Excel workbook.

Field Name	Required	Documentation
Customer ID	Y	A unique ID to map customer information from worksheet to worksheet. Use alphanumeric characters only or current account ID at your firm.
Question 1	Y	<p>Possible values: YES/NO</p> <p>Is the account holder or any immediate family member who resides in the same household, registered as a broker-dealer or an employee, director or owner of a securities or commodities brokerage firm?</p> <p>NOTE: If account holder is employed by a brokerage firm, the compliance officer of that firm must authorize this account by sending an e-mail to Interactive Brokers Processing Department at newaccounts@interactivebrokers.com. The compliance officer should note "Employee Account Authorization" in the subject heading of the e-mail. The e-mail must state the following:</p> <p>"Interactive Brokers is authorized to establish and maintain an account for [Fill in Customer name]. [Fill in Name of Brokerage Firm] agrees to accept copies of daily confirmations and monthly statements by email to [Fill in E-mail Address]."</p>
<p>If answer to question 1 is "YES", specify:</p> <ul style="list-style-type: none"> » Person's Name » Relation to Account Holder(s) » Brokerage Firm Name » Brokerage Firm Address 		

Field Name	Required	Documentation
» Brokerage Firm Phone		
Question 2	Y	Possible values: YES/NO Is the account holder a member of an exchange or a regulatory or a self-regulatory organization, or an associated person, affiliated person or employee of an exchange member?
If answer to question 2 is "YES", specify: List firm and Exchanges Y		
Question 3	Y	Possible values: YES/NO Has the account holder ever been the subject of, or initiated, litigation, arbitration or any other type of dispute or settlement procedure with another broker or dealer?
If answer to question 3 is "YES", specify: Details, including the disposition of the litigation, arbitration or procedure.		
Question 4	Y	Has the account holder ever been the subject of an investigation or proceeding by any commodities or securities exchange or regulatory authority or self-regulatory authority?
If answer to question 4 is "YES", specify: Details, including the disposition of the investigation or proceeding		
Question 5	Y	Is the account holder: i) a director; ii) a 10% shareholder; or iii) a policy-making officer of any publicly traded company?
If answer to question 5 is "YES", specify: Enter the stock symbol(s) of the company(ies), separated by commas.

Joint Account Information

The Excel workbook displays Joint Account information in a number of fields displayed on several worksheets. The following topics contain complete reference information for all of the

fields on these worksheets, including whether or not a field is required and the correct values for each field.

- » [Joint Account Information Worksheet Fields](#)
- » [Second Holder Information Worksheet Fields](#)
- » [Second Holder W-9/W-8BEN Worksheet Fields](#)
- » [Second Holder Employment Information Worksheet Fields](#)

Joint Account Information Fields

Refer to the following table when completing the fields on the Joint Account Information worksheet in your Mass Upload Excel workbook.

Field Name	Required	Documentation
Customer ID	Y	A unique ID to map customer information from worksheet to worksheet. Use alpha-numeric characters only or current account ID at your firm.
Joint account type	Y	One of: <ul style="list-style-type: none"> » Community » Joint Tenants » Tenants Common
First holder ownership %	N	Number. Default is 50/50 for each holder.
Second holder ownership %	Y	Number.

Customer Information Worksheet Fields

Refer to the following table when completing the fields on the Customer Information and Second Holder Information (for Joint accounts) worksheets in your Mass Upload Excel workbook.

Field Name	Required	Documentation
Customer ID	Y	A unique id to map customer information from worksheet to worksheet. Use alphanumeric characters only or current account id at your firm.
Salutation	Y	One of: >> Mr. >> Mrs. >> Ms. >> Dr.
First name	Y	
Last name	Y	
Middle name	N	Include middle initial only.
Suffix	N	
Home street address	Y	P.O. boxes or "in care of" addresses not accepted.
City	Y	
State/Province	Y	2-letter code.
Country	Y	3-letter country code.
Zip	Y	
Phone number (1)	Y	###-###-#### format.
Phone number (2)	N	###-###-#### format.
Fax	N	###-###-#### format.
Email address	Y	If including two or more, please add comma to separate.
Date of birth	Y	MM/DD/YYYY format.

ACATS Fields

Refer to the following table when completing the fields on the ACATS worksheet in your Mass Upload Excel workbook.

-  **Note:** ACATS (Automated Customer Account Transfer Service) is a type of position transfer in which cash and positions are moved from a third-party US broker to IB. ATON (Account Transfer on Notification) is the Canadian broker equivalent of ACATS.

Field Name	Required	Documentation
Customer ID	Y	A unique ID to map customer information from worksheet to worksheet. Use alphanumeric characters only or current account ID at your firm.
Customer account at broker	Y	
BrokerID	Y	DTC/Broker ID.
Broker name	Y	
Transfer scope	Y	Only full accepted
Has margin scope	Y	YES/NO. Indicates whether customer has a margin loan at third-party broker.
Holds options positions	Y	YES/NO. Specifies if customer's account at the third- party holds any options positions.
Holds short positions	Y	YES/NO. Indicates if customer's account at the third- party holds any short positions.
IRA type	N	IRA type of the account at the third party broker from which positions are to be transferred to an IB IRA account. Only required if the destination account at IB is an IRA account. The type must match the IB account type; otherwise transfer will be rejected.
IB account ID	N	If customer already has an IB account ID.
Signature	Y	First and Last Name of Account Holder.
Transfer Type	Y	ACATS or ATON.

ACH Instructions Fields

Refer to the following table when completing the fields on the ACH worksheet in your Mass Upload Excel workbook.

Field Name	Required	Documentation
Customer ID	Y	A unique ID to map customer information from worksheet to worksheet. Use alphanumeric characters only or current account ID at your firm.
Instruction Name	Y	Bank Name (recommended).
Country of Bank	Y	
Currency	Y	
ABA Routing Number	Y	
Account Number	Y	
Type	Y	Credit.
Transactions Name	N	

Application XML

The Interactive Brokers Application XML is available for Registered Advisors and Fully Disclosed Brokers who want to develop their own version of the Interactive Brokers account application for their clients.

 **Note:** Application XML is intended for Advisors and Brokers who either have working knowledge of XML or have access to support staff with working knowledge of XML

What is Application XML?

Application XML is a process that lets Registered Advisors and Fully Disclosed Brokers provide their clients with their own customized Interactive Brokers account application experience based on IB's Application XML Schema. In Application XML, you use our schema as the basis for your own client account application, collect all of the required information about your client applicants, and then return all of the client information back to us in XML documents for processing. For example, an Advisor may want his clients to complete an IB account application on his or her own website instead of using Interactive Brokers' electronic client account application.

You can collect your clients' account application information any way you prefer, as long you submit that information to us as properly formatted XML files.

What We Provide

IB provides everything you need to program your own XML-based client account application solution:

- » **Application XML Agreement** - You must sign the Application XML Agreement and return it to us via email for approval by our Compliance Department.

Once we have approved your signed Application XML Agreement, we will provide the following supporting documents in the outgoing/Documents folder on our [anonymous FTP site](#):

- » **IB Application XML Schema** - The Application XML Schema is described in two XML Schema Definition (.XSD) files: *IBCust_import.xsd* and *IBCustEnumerations.xsd*. The .XSD files describe the structure and data types for the XML documents that contain your clients' application information.
- » **Application XML Schema Documentation** - This is a zipped online help system automatically generated from the .XSD files that completely documents the Application XML Schema, including all elements, data types, attributes and values. Once you download and unzip this file, open the *index.html* in your browser to open the documentation.

 **Note:** The Application XML Schema Documentation includes information about five elements: *AcctMgmtRequests*, *AllDVPInstructions*, *Applications*, *ExtPositionsTransfers* and *Synchronization*. Use ONLY the *Applications* element and ignore the other elements.

- » **XML Samples** - Application XML currently supports Individual, Joint, Trust and IRA client accounts for an Advisor or Fully Disclosed Broker account, so we provide a group of sample files for the most common client account types. Your programming or technical resources can use the XML samples as models for the XML files that you will send back to us.
- » **ACAT Broker ID/Name List** - This Excel spreadsheet (file name *ACAT Broker Entries.xls*) lists all brokers who are eligible for ACATS transfers. Refer to this spreadsheet for any clients that using ACATS to fund their accounts.

- » **EmployeeTrack Company IDs** - This Excel spreadsheet (file name *ET_Company_ID.xls*) lists IDs that correspond to our internal EmployeeTrack company IDs. Refer to this spreadsheet for any clients who are employed by a broker/dealer with an IB EmployeeTrack account.
- » **Financial Ranges** - Net Worth, Liquid Net Worth, Annual Net Income and Total Assets are required attributes in the Financial Information section of your client account applications. We allow either absolute values or ranges of values for these four attributes. The *Financial_Ranges.xls* Excel spreadsheet lists ranges of values and their corresponding IDs. If you choose to use financial ranges instead of absolute values for these attributes, include the IDs for the appropriate financial range from this spreadsheet.
- » **Bundle Based/Capability Based Guidelines for Trading Permissions** - We provide three text files (*BundleBased.txt*, *CapabilityBased-Country.txt* and *CapabilityBased-State-Country.txt*) that list the form numbers of disclosures, agreements and acknowledgments that are required to support different trading permissions for your client applicants. The actual forms are located in the outgoing/Forms folder on our anonymous FTP site and are listed by the form numbers included in these three text files.
- » **Trading Permission Codes** - This Excel spreadsheet, (file name *TradingPermissions.xlsx*), lists all of the available trading permission codes that identify the asset classes and countries that your clients want to trade. You use these codes to indicate requested trading permissions in the XML files containing your clients' application information that you send back to us. For example, a trading permission code of US-Sec means that a client is requesting permission to trade US Stocks.

- » **Broker Client Market Data Service IDs** - For Fully Disclosed Brokers only, this Excel spreadsheet (filename *IBrokerClient_MarketDataServices.xls*) lists all market data subscription and their Service IDs, along with the price and currency of each subscription. When sending us your client applicant data, use this spreadsheet to find the correct Service ID for each requested market data subscription, and include the Service IDs in the MDServices element in the client application XML file.
- » **Interactive Brokers Public PGP Key** - When you submit your client application information and signed forms and agreements in XML and zip files, you will need IB's public PGP key. The file name is *IBKR_CI.PubKey.asc*.

Accessing the Files at Our FTP Site

All of the files that we provide are located at our anonymous FTP site. Use the following information to access the FTP site. Note that we use anonymous FTP, which means that you can access documents and forms using your web browser.

FTP Site Information

- » Agreements and Disclosures Location:
<ftp://ftp.interactivebrokers.com/outgoing/Forms>
- » Supporting Documents Location:
<ftp://ftp.interactivebrokers.com/outgoing/Documents>

How to Get Started

1. Learn more about the [XML Sample Files](#) that we provide at our anonymous FTP site.
2. Read the [Summary](#) to familiarize yourself with the main steps involved in the Application XML process.
3. Go to [How to Set Up Application XML](#) and follow all of the detailed steps to initiate the process, prepare and test your XML files, and complete the delivery of your final XML files.

Application XML Summary

Here is a summary of the steps required to complete the Application XML process. Read this section if you would like to familiarize yourself with the overall process before you begin.

 **Note:** You can skip this section and go directly to the detailed steps in [How to Set Up Application XML](#) if you prefer.

1. Send a request to implement Application XML to salesengineering@interactivebrokers.com.
2. We will send you our XML Agreement. Sign and send the agreement back to us at the email provided above. We will submit it to our Compliance Department for approval, which typically can take 3-5 days. Once you are approved, we will email you with details about our secure FTP site.
3. Download the files we provide at our [anonymous FTP site](#) (this is separate from the secure FTP site), build your user interface to collect client data and sign agreements, and then prepare XML files with sample data for testing.
4. Once testing has been successfully completed, collect all general data about your client applicants, including name, address, employment and other information, and get those applicants to sign Interactive Brokers' agreements and disclosures on your own website. Use the XML Samples as models for the XML files that you send us, or use the All-In-One zip file, which includes both an example XML file and signed agreements and disclosures.
5. Upload all applicant data, funding notifications and electronic signatures in XML files along with copies of the required PDF forms in an encrypted zip file to the secure FTP site.
6. We retrieve and process the files and then post encrypted response XML files to the secure FTP site. The response files will have a status of Success or Error. You correct any errors and then resubmit the corrected XML files to the secure FTP site.
7. If no additional documentation is needed, the account will be submitted for approval.

8. As Advisor or Broker, you are responsible for providing the account numbers, usernames and temporary passwords to your clients.
9. Each client must log in to reset his or her password to access Account Management once his or her client account has been approved and opened.

 **Note:** Temporary passwords do not expire; however, all clients MUST modify their temporary passwords upon logging in for the first time.

About the XML Sample Files

Read this section to learn more about the XML sample files that we provide at our [anonymous FTP site](#).

Application XML currently supports Individual, Joint, Trust and IRA clients for an Advisor or Fully Disclosed Broker account. After you initiate the Application XML process, you can download the XML sample files from our anonymous FTP site. There is one zip file for each type of client account that includes a sample XML file and required IB PDF agreement and disclosure forms. Your programming or technical resources can use the XML samples as models for the XML documents containing your clients' application information that you send back to us.

Advisor Client Types - Sample Files

The sample files include XML application data and required PDF forms for the following types of client accounts:

- » **Individual** - *Individual_US_Sample.zip*
- » **Joint** - *Joint_Sample.zip*
- » **IRA - Traditional Rollover** - *TraditionalRolloverIRA_Sample.zip*
- » **IRA - Roth** - *RothIRA_Sample.zip*
- » **Revocable Trust** - *RevocableTrust_Sample.zip*

Trading Permission Codes

Trading permission codes define all of the available trading permission codes that identify the asset classes and countries that your clients want to trade. After you initiate the Application XML process, we send you an Excel spreadsheet file, *TradingPermissions.xlsx*, that lists all of these trading permission codes. Your programming or technical resources should use this Excel spreadsheet as a reference when including the trading permissions in the XML documents containing your clients' application information that you send back to us.

How to Use the Trading Permission Codes

In each client application XML document that you send us, there is a complexType called *Trading Permission*. Trading Permission includes an attribute called *exchange_group*. Insert the correct Trading Permission code as the value of *exchange_group* attribute for each trading permission in each client application XML document. Multiple trading permissions should appear on multiple lines, as shown in the example below.

```
<TradingPermissions>
  <TradingPermission exchange_group="US-Sec"/>
  <TradingPermission exchange_group="US-SecOpt"/>
  <TradingPermission exchange_group="US-Com"/>
  <TradingPermission exchange_group="US-ComOpt"/>
  <TradingPermission exchange_group="US-SSF"/>
  <TradingPermission exchange_group="US-BOND"/>
</TradingPermissions>
```

For example, a trading permission code of US-Sec means that a client is requesting permission to trade US Stocks. Descriptions of all trading permission codes are included in the *TradingPermissions.xlsx* Excel spreadsheet, included in the Application XML package you initially received from us.

How to Set Up Application XML

The following steps describe how a Registered Advisor or Introducing Broker initiates the application XML process, what details are required in the application XML files, and details about delivery methods. The entire process is presented here in the following sections:

1. Preliminary Steps
2. Build and Test Your User Interface
3. Rules for Submitting Files
4. Testing Phase
5. Production Phase

1. Preliminary Steps

1. Send a request to implement Application XML to salesengineering@interactivebrokers.com. We will send you our XML Agreement.
2. Sign and send the agreement back to us at the email provided above. We will submit it to our Compliance Department for approval, which typically can take 3-5 days.
3. Once you are approved, download all supporting documentation, files, XML samples and agreements and disclosure forms from our anonymous FTP site. Download the documents, files and samples from the [Documents folder](#) on our anonymous FTP site, and download all forms from the [Forms folder](#) on our anonymous FTP site.
4. Download our public PGP key from the Documents folder on our anonymous FTP site. You will need this to encrypt files that you submit to IB later. The file name of the public PGP key is *IBKR_CI.PubKey.asc*.
5. Later, during the testing and production steps of the process, you will upload your XML files from a separate, secure FTP site and retrieve our encrypted response XML files from the same secure FTP site. Once your initial agreement has been approved, we will email you with details about how to access this secure FTP site , including your own unique login credentials.

6. Provide us with your PGP key so that you will be able to retrieve our XML response files from the secure FTP site.
7. Review all supporting documents and files and email any questions you may have to us at salesengineering@interactivebrokers.com.

 **Note:** See [What We Provide](#) for more information about the supporting documentation, files and samples.

2. Build and Test Your User Interface

1. Build the user interface that you plan to use to collect client application data and prompt clients to sign agreements. You and your programming team can use the XML schema documentation and other supporting files as reference while you build your interface.
2. Test your user interface with sample data.

3. Rules for Submitting Files

Familiarize yourself with the following rules about file names and file submission. **You will need this information to prepare and submit both test XML files and final production XML files.** Note that the same secure FTP site (NOT the anonymous FTP site) is used for both testing and production.

- » To submit client applicant information, upload one or more XML files along with copies of the accompanying PDF agreement and disclosure forms in an encrypted zip file. This method lets you submit the XML application information and PDF forms for one or multiple clients together in a single, encrypted zip file. The zip file must be encrypted with IB's PGP key (available on our anonymous FTP site). Note that you can upload multiple zip files if you prefer, as long as each zip file contains both XML files and PDF forms, and each zip file is encrypted with IB's PGP key.

- » You must follow this naming convention for your zip file(s):

Tester_YYYY-MM-DD_HHMMSS.zip.gpg

where the first segment is the same prefix as your xml files, the second segment is the date (YYYY-MM-DD) and the third segment is the time (HHMMSS). The file name extension must be *.zip.gpg*.

For example, Tester_2015-07-29_125345.zip.gpg

- » Do not upload individual XML files without the accompanying PDF forms because this will delay processing.
- » Do not upload encrypted XML files with PDF forms in a zip file. The zip file must be encrypted, NOT the individual XML file(s).
- » If there are two accounts (U101/U102) sending three agreements (A1/A2/A3), it is acceptable to have only three PDF files (A1.pdf; A2.pdf; and A3.pdf). In this case, the XML file should specify the same file names for each account. No specific naming convention is needed for the PDF files. Avoid using spaces and special characters in the PDF file names because they tend to create problems.

Important Information About Regulatory Information AFFILIATION Status

In the XML file, there is a section about Regulatory Information which includes the RegulatoryDetails code "AFFILIATION." In your XML file, this is the line that reads **<RegulatoryDetails status="true" code="AFFILIATION" />**. For clients for whom the value of this code is set to true, you have two options:

Option 1: For EmployeeTrack Accounts

Reference the ET_Company_ID Excel spreadsheet. For example, modify the code in your XML file to read as follows:

```
<AffiliationDetails>
<affiliation_relationship>Wife is Employee</affiliation_relationship>
<person_name>Jane Nueman</person_name>
<company_id>14</company_id>
</AffiliationDetails>
```

Option 2: Not an EmployeeTrack Account

For example, modify the code in your XML file to read as follows:

```
<AffiliationDetails>
<affiliation_relationship>Self</affiliation_relationship>
<person_name>Karl Gustav Martin Eriksson</person_name>
<company>Covestor</company>
<company_mailing_address postal_code="02110" country="United States"
state="MA" city="Boston" street_1="175 Federal street, suite 825"/>
<company_phone>18668253005</company_phone>
</AffiliationDetails>
```

4. Testing Phase

When you are ready, we will test the sample data in your XML files in our QA environment and work with you to correct any errors. Here are the detailed steps in the testing process:

1. Prepare your XML files with sample client information. Use the sample XML files and Application XML Schema online documentation as guides.

Your Application XML files (for testing and production) must include:

- All required client information.
- Each client account application must include a unique [external ID](#), which we use to identify the account. Specify the external ID in the `external_id` attribute in the XML for the client. We cannot process two applications with the same external ID. Note that you can use your own user ID as the external ID.
- Interactive Brokers agreements and disclosures, which must contain:
 - Electronic signatures (in our XML schema, this is the element `Signed By`, which is a child of the element `Document`);
 - The file name of each agreement or disclosure form sent, with each form sent separately in PDF format by account;
 - File length in number of bytes;
 - SHA1 checksum
 - Two timestamps: `exec_login_ts`, which represents the moment that the client logged in to your system; and `exec_ts`, the time at which the client effectively signed.

 **Note:** Actual client signatures are not required on the PDF agreements and disclosures that you send us. They ARE required in the XML file as indicated above.

2. Save the XML files and their accompanying PDF agreement and disclosure forms in a zip file encrypted with IB's public PGP key as described in [Rules for Submitting Files](#).
3. Upload the zip file(s) to the applications/incoming folder on our secure FTP site.

If you know that you uploaded a file that contains errors and we have not yet processed the file, let us know, and then delete the incorrect file from the secure FTP site, correct the errors, and replace it with the corrected file.

4. We retrieve the files that you uploaded and process them in our QA environment, and then we post encrypted test response XML files to our secure FTP site.
5. Download the test response files and ensure that you can decrypt them using your PGP key. Response file names follow this naming convention:

Tester_YYYYMMDD-HHMMSS.xml

where the first segment is the same prefix as the xml files that you submitted, the second segment is the date (YYYYMMDD) and the third segment is the time (HHMMSS).

For example Tester_20160210-094705.xml

6. Once you decrypt and open the test response files, you will be able to see their contents:
 - The status of your application: `Success` or `Error`.
 - Details of any errors.

If the status is `Success` (there are no errors), the response file will include the Interactive Brokers account number, username, temporary password and accepted or pending agreements and disclosures.

If the status is `Error`, you must correct the errors and then resubmit your file(s). When you resubmit the corrected XML files, you can continue to use the same external ID for each client application.

5. Production Phase

When you have successfully loaded several test accounts, let us know that you are ready to prepare and submit your client applications for production. The steps for preparing and uploading XML files and PDF forms and retrieving response files are nearly identical to the steps in the testing phase. The only difference is now you will be submitting actual client applications instead of sample applications.

Follow these steps:

1. Collect the real data from your applicants (your clients) via the user interface that you built.
2. Ensure that your XML files adhere to the guidelines listed in Step 1 in the section [Testing Phase](#) above.
3. Prepare one zip file for a single client account application for upload according to the guidelines listed in the section [Rules for Submitting Files](#) above. Make sure the zip file is encrypted, NOT the XML file contained therein.
4. Upload the zip file to our secure FTP site.
5. We will process the file. Files are processed only once; files that have been already processed are ignored.
6. Check the secure FTP site for our XML response file. Decrypt the response file. If there are any errors, correct them and resubmit the file. See Steps 5-6 in the section [Testing Phase](#) above for details.
7. If you need to update a client application that you have already submitted (for example, the client's marital status changed), and the application has not yet been successfully processed, you must resubmit the XML file using the same external ID as the original (resubmit the updated XML file along with the PDF forms in an encrypted zip file). If the application you need to update and resubmit has already been successfully processed, you must resubmit the XML file using a new external ID, and then [delete the incorrect client application using the Manage Clients > Dashboard page in Account Management](#).
8. If you forget to submit all of the required agreements and disclosure forms, you can submit a special XML file as described in the [FAQs](#) section.

9. Once that first file has been verified as being completely error-free, we will begin automatically checking the secure FTP site every 15 minutes from 3:00 AM EST to 16:10 PM EST. You can prepare and upload additional zip files for your client account applications.
10. Retrieve the response files from our secure FTP site.

11. Correct any errors indicated in the response files, and resubmit your files.
 - If we ask for additional documents (i.e. Proof of Address or Proof of Identity), email them to: newaccounts@interactivebrokers.com. Be sure to include only the new Interactive Brokers account number in the subject line.
 - If no additional documentation is required, each client account will be submitted for approval. You can check the status of each account application on the [Manage Clients > Dashboard page in Account Management](#).
 11. As Advisor or Broker, you are responsible for providing the account numbers, usernames and temporary passwords to your clients.
 12. Each client must log in to reset his or her password to access Account Management once his or her client account has been approved and opened.
-  **Note:** Temporary passwords do not expire; however, all clients MUST modify their temporary passwords upon logging in for the first time.

Frequently Asked Questions

What is the External ID?

The external ID is a unique identifier that is represented in the XML file by the attribute `external_id`. The external ID must be unique for each account application; we cannot process two applications with the same external ID. You can use your own user ID in this field.

The `external_id` is an attribute of the following complex types in the XML file:

- » Customer
- » Individual
- » Account
- » User

The external IDs can be the same for all four unless there are multiple individuals. If there are multiple individuals in an application (i.e., secondary holder in a joint account, IRA beneficiaries or Trust beneficiaries/grantors), then the external ID must be unique for each individual.

The user external ID would be the same ID as the account holder.

Individual Example:

- » Customer external_ID= ANAGY001
- » Individual (account holder) external_ID= ANAGY001
- » Account external_ID= ANAGY001
- » User external_ID= ANAGY001

IRA Example:

- » Customer external_ID= ANAGY002
- » Individual (account holder) external_ID= ANAGY002
- » Individual (beneficiary) external_ID= ANAGY00248
- » Account external_ID= ANAGY002
- » User external_ID= ANAGY002

Trust (Rev) Example:

- » Customer external_ID= NAGYTR04
- » Individual (account holder/Trustee) external_ID= NAGYTR04
- » Individual (Trust Beneficiary) external_ID= NAGYTR0412
- » Individual (Trust Grantor) external_ID= NAGYTR0444
- » Account external_ID= NAGYTR04
- » User external_ID= NAGYTR04

Which funding methods can I use to fund new accounts?

Only ACATS, ATON, ACH (initiated by bank only), wire and check deposits are supported. Full position transfers are supported, but partial position transfers are not supported.

What is the minimum deposit required to open a client account?

5,000 USD.

What are the rules for account usernames?

Usernames are eight characters long and must contain five lower-case letters and three numbers. You only need to provide the five lowercase letters; Interactive Brokers will append three numbers to complete the username.

What format do I use for Advisor Fees using Percent of Net Liquidation Value (%NLV)?

Enter your %NLV using the following example:

For 2%, enter 2, not 0.02.

What do I use for the Identification element?

For US: Social Security Number (`SSN` attribute).

For non-US, one of the following:

- » License (`DriversLicense` attribute)
- » National ID (`NationalCard` attribute)
- » Passport (`Passport` attribute)
- » Alien ID (`AlienCard` attribute).

Which XML element do I use for a new application?

The only XML element you will use is `Applications`. Disregard all other XML elements.

For the `AccreditedInvestorInformation` complex type, there are five unnamed booleans == q1,q2,q3,q4,q5. What do these do?

You can ignore these obsolete items.

What happens if I submit a new application with an older timestamp than a previously submitted application?

The order of application submission has no effect on the Application XML.

What time zone should I use for the two timestamps `exec_login_ts` and `exec_ts`?

All of our times are based in New York (EST or EDT).

What encryption options are available?

PGP only.

What if I forget to submit specific required agreements or disclosures?

You can submit them by uploading an XML file to our FTP site. Name your file *submit_additional_docs.xml* and use the following sample as a guide:

```
<?xml version="1.0" encoding="US-ASCII" standalone="yes"?>
<AcctMgmtRequests xmlns="http://www.interactivebrokers.com/schemas/IBCust_import">
<DocumentSubmission reference_account_id="U1110000">
  <Document form_no="3007" exec_ts="20140620165825" exec_login_ts="20140620195825">
    <SignedBy>Test Tester</SignedBy>
    <AttachedFile file_name="3007.pdf" file_length="10896" sha1_
checksum="d3da37913817130fa62479905267361bffd090c7" />
  </Document>
</DocumentSubmission>
</AcctMgmtRequests>
```
