

WAVESTRUCTURE SERVICE OVERVIEW

WaveStructure provides its subscribers with access to daily Elliott Wave and Action Reaction line analysis covering the following markets:

- Currencies
- Indexes
- Commodities
- US Equities
- EU Equities

Analysis of the instruments within each asset class is continuously updated. Alerts about imminent trade opportunities are issued on a daily basis before market open. Alerts fall within the following categories:

- Action Reaction line break (see Education section)
- Elliott Wave breakout (e.g. price rallies above the top of wave 1, entering into wave 3 territory)
- Elliott Wave divergence (e.g. price action in wave 5 not confirmed by a new extreme in the RSI reading)

On average there are about 10-30 alerts issued per day. Alerts follow a simple format:

Date	Period	Ticker	Instrument	Event	Sentiment
31/12	Daily	ZL	Soybean Oil	Divergence	Bearish

Subscribers get instant access to educational materials with detailed explanation of our methodology and examples of how the system is applied in real life trading. These materials are divided into 7 parts:

- History
- Market Structure
- Wave Principle
- Action Reaction Lines
- Application
- Case Study
- Alan Andrews' Original Action Reaction Course
